

High-quality cable solutions for your project

shipbuilding and on-/offshore

All advantages at a glance

In addition to tailored product solutions, we offer our customers many individual services. A dedicated and experienced team of qualified specialists is at your side and will advise you on all questions relating to product selection, assembly and logistics.

Largest ship cable inventory in Germany

Our Wismar logistics centre features 10,000 m² of space with two warehouse halls. Hall 1 is equipped with modern cable winding machines. This is where the cables and wires are cut, taped, labelled and assembled at the installation temperature. Hall 2 features high racks with space for around 2,500 pallets.

Personal consultations

Personal customer service is our top priority. Allow our dedicated and experienced team of qualified specialists to advise you on all matters relating to product selection, assembly and logistics – whenever you need it.

Extensive range of products

At our Wismar logistics site, we permanently stock around 5,000 articles for maritime ship cables (civil and military) and for cables and wires for on-/off-shore, industrial and data technology applications.

Individual services

Whether you need individual logistics services such as custom cutting, taping and labelling or assembly of cables according to your cable lists – we have the perfect solutions for your requirements.

Immediate goods availability

We understand how important flexibility is for optimal time and project management. Most of our products are available from stock and can be delivered just in time or time to time.

Environmental protection

We take aspects such as resource conservation, optimisation of material usage, environmentally friendly production processes of our manufacturers and recyclability into account in everything that we do.

Specialist expertise and product diversity

About us

Friesland-Kabel GmbH has the largest marine cable inventory in Germany, and the majority of our products for the onshore/offshore, industrial, data technology and standard cable sectors are available from stock. Discover the benefits of our corporate strategy.

Market leader in Germany in the maritime ship cable segment

Friesland-Kabel GmbH was founded in 2007. Our company has become the market leader in Germany in the sale of maritime ship cables and in custom full-service logistics services. Our customers include renowned shipyards and electrical installation companies. Friesland-Kabel GmbH is certified by the Federal Office of Bundeswehr Equipment, Information Technology and In-Service Support (BAAINBw) as an approved sales outlet for military cables that comply with the Bundeswehr VG standard 95218 and which are available from stock. In addition, our cables and wires for the on-/offshore, industrial and data technology sectors as well as standard cables are sold worldwide. Friesland-Kabel GmbH has been part of the Faber Group since 2019.

Extensive product range

Custom solutions for a wide range of industries

Well cabled at sea

Cables for maritime installations

We supply shipyards, system integrators and electrical installers with high-quality cable products for securing power and data transmission on and below deck.

VG standard 95218-compliant ship cables

Military ship cables in stock

We deliver all common cable types for military shipbuilding just in time – thanks to outstanding logistics
